EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. David Preston on May 12, 2004.

The application has been amended as follows:

Claim 100, line 9, -- wherein said one or more magnetic microparticles comprise one or more binding members specific for one or more moieties of interest;— was inserted after "sample;".

Claim 100, line 11, -- said-- was inserted after "such that".

Claim 122 was canceled without prejudice.

Claim 123, line 1, "122" was replaced with --100--

The following is an examiner's statement of reasons for allowance: The prior art fails to teach a method of separating one or more moieties from a blood sample comprising adding to said sample a solution that selectively lyses red blood cells, such that when said solution that selectively lyses red blood cells is added to said blood sample, said blood sample has a low conductivity and an osmolarity of from about 20 mOsm to about 150 mOsm; adding magnetic microparticles with specific binding members for the moieties of interest; adding said blood sample to an electromagnetic

chip; and subjecting said blood sample to electromagnetic forces, such that said one or more moieties of interest are selectively retained in one or more areas of said chip.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
